

TF4200 Series Load Bay NEMA TS-2, Type 2

EAGLE[®]
Traffic Control Systems

Description

Eagle load bays are available in dedicated eight, twelve, and sixteen load switch configurations.

The TF4200 series load bays are hardwired for ease of maintenance and economical modification.

The flash indication colors can be programmed from the front panel, using only a screwdriver.

The load bays will fit into most existing Eagle cabinets and can be installed in less than four (4) hours.

Multiple options are available for customizing the load bay. Contact MoboTrex for available options.

Note: The TF4212 and TF4216 load bays will only fit in size M36 or larger cabinets.
